Ice cream is loved by many people from children to adults, but not many of them know its history. Ice as a sweet food goes back to Ancient Rome. At that time, people could not make ice themselves, so they had to go to cold mountains to get it. The Roman king called Nero used to eat ice mixed with honey and fruit, but it was something very special. It was very expensive, so only the king was able to enjoy it. Over time, sweet food made from ice and milk was developed in Europe, and it finally became ice cream by the 18th century. However, ice cream was not popular yet because it was very difficult to mix ice and milk. When the ice cream machine was invented in America in the 19th century, it became easier to make ice cream. More shops started to sell ice cream, and it became very popular. Then many different types of ice cream were created by ice cream companies. Today, ice cream is sold all over the world, and anyone can enjoy its cold and sweet taste.

Yuta: Hey Rachel, if you had a lot of money, what would you do?

Rachel: That's a good question. Hmm, let me see... If I had a lot of money, I would visit Italy.

Yuta: I see. Why?

Rachel: Well, you know I love Italian food, like spaghetti, pizza and tiramisu, but I have never been to Italy. I want to know what real Italian food tastes like.

Yuta: That makes sense. Lots of Italian food sold in supermarkets isn't actually made in Italy. I have heard that "Napolitan" and "doria" aren't even Italian foods at all. They are both from Japan.

Rachel: That's true. How about you, Yuta? Is there any country that you want to visit?

Yuta: I want to visit Palau.

Rachel: Palau? I have never heard of that country. Where is it?

Yuta: It's near the Philippines. Palau is a small island country, but many Japanese people used to live there about 100 years ago. My great-grandmother also lived there.

Rachel: Oh, I didn't know that! What do you want to do there?

Yuta: Palau is known for its beautiful nature, so I want to enjoy swimming in the clear blue sea. I also want to take lots of cool photos and try coconut sashimi.

Rachel: Coconut sashimi? That's interesting.

Yuta: Yes, but it's very expensive to travel. I wish I had enough money to go there.
